

WOMEN WITH VISION

Fictional Community Connection: Citizen Journalists

Element: Air

Primary concerns: What are the primary goals for your group within Fauxville but also within the specific scenario the community currently finds themselves

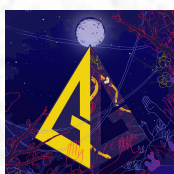

1. Collect the stories of community archive and reflect the times of how community members think about what's happening with the data center
2. Advance racial equity

Thoughts on Data Center: You are overall neutral, the data center and associated AI is ultimately a tool

- Pro: The data center is connected to added digital archival projects and digital literacy initiatives to aid in better access and opportunity to tech
- Con: data center is connected to increased funding in surveillance technologies—a historic issue in racial profiling and policing in Knoxville
